WHAT YOU GET WITH OUR SOFTWARE SECURITY & REMOTE ACCESS BUNDLE
INCLUDED WITH ELITE DESKTOP CARE

WEBROOT®
Smarter Cybersecurity™

Conventional antivirus protection is struggling to keep up with today's threats and attacks. It slows down machines and their users and is resource-intensive. Webroot effectively stops malware and zero-day threats at the moment of infection. Its unique, next-generation approach to malware prevention is more effective and accountable than any conventional antivirus.

CISCO Cisco Umbrella

As the industry's first Secure Internet Gateway in the cloud, Cisco Umbrella provides the first line of defense against threats on the internet. Because Umbrella is delivered from the cloud, it is the easiest way to protect all of your users in minutes.

LogMeIn® Pro

With LogMeIn Professional, you are given the freedom to be in two places at once with remote access to your networked devices. Simplify access to your work and store, share, and collaborate across all of your devices. LogMeIn Professional allows you to quickly access your computer desktop and extend computer and file access to anyone you choose.

SOFTWARE SECURITY & REMOTE ACCESS BUNDLE

LOC RMM
REMOTE MONITORING & MANAGEMENT

With Les Olson Company's Remote Monitoring & Management, you can depend on trained experts at your side, with 24/7 monitoring and reporting of your systems - complete with alerts generated from Les Olson Company's monitoring agents. Since businesses are always changing, we provide a pay-as-you-grow payment plan. We will provide continued education and training throughout the lifetime of your partnership with us.

LOC CLIENT
COMMUNICATOR

Our built-in Client Communicator provides ease and functionality when the need arises for us to communicate with you swiftly and directly. This instant messaging platform adds enhanced visibility and communication between us as your I.T. partner and you as our valued client.

OPTIONAL ADDITIONS
