

THREE SIGNS

3

## YOU NEED A NEW COPIER

1

### YOUR TEAM HAS GROWN OR YOUR WORKLOAD HAS INCREASED

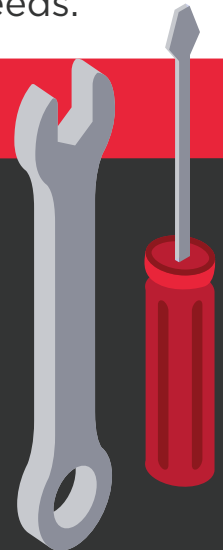

Are there more people using your copier? Has the average monthly number of prints and copies changed? It may be time to re-evaluate your device to make sure it still meets your needs.

2

### YOU NEED MORE FREQUENT REPAIRS

No matter how good the service team, the truth is that high-page-count copiers (similar to high-mileage cars) eventually will need to be replaced. Have you noticed an increase in service calls? No machine can run forever.

3

### YOUR TEAM DEMANDS GREATER EFFICIENCY

Technology changes rapidly, and copier technology is no exception. For many businesses, an updated copier is the tool that helps their team accomplish more.
