

Imaging area up to 2" x 15" is ideal for printing outgoing address on envelopes with pre-printed return address

Compact and User Friendly

The **AP2 Monochrome Digital Address Printer with Integrated Feeder** combines user-friendly features in a rugged, compact machine. This tabletop solution prints up to 22,000 #10 envelopes per hour, with variable print resolutions up to 600 DPI, and the capability to print on a variety of coated and uncoated paper stocks.

Its 4.5" color touchscreen features an adjustable backlight, and allows users full control of functions, including the ability to store and recall common print jobs, up to 16GB. The integrated feeder holds up to 500 #10 envelopes at a time, and can handle materials up to 1/4" thick. The fixed print head uses 4 thermal inkjet cartridges simultaneously to produce an image area up to 2" x 15", and can be adjusted to a maximum vertical print range of 10.75".

Additional user-friendly features include on-screen ink monitoring for both percentage used and approximate pieces remaining, USB 3.0/LAN connectivity, the ability to print any TrueType font, spot color capability, and batch/job/lifetime counters. Options include a conveyor stacker for easy handling after printing, and an infrared dryer.

The AP2 Address Printer provides a durable, affordable and intuitive solution for schools, small offices, churches, associations and entry-level mailers.
